Targeting Biomarker-Driven Advanced Thyroid Cancer Today: Most Recent Diagnostics and Treatment Updates

Symposium Objectives

- Discuss the optimal diagnostic techniques and guidelines to identify actionable biomarker-driven thyroid cancer to support treatment decisions
- Accelerate the translation of clinical evidence into clinical practice for patients with advanced thyroid cancer
- Facilitate the exchange of clinical experience in the management of thyroid cancer

Agenda

11:00	Introduction and welcome	Patrick Pauwels, Belgium (Chair) Laura Fugazzola, Italy (Chair)
11:05	Tissue testing for actionable biomarkers in patients with advanced thyroid cancer	Patrick Pauwels, Belgium
11:15	Biomarker-driven thyroid cancer: state of the art treatments of advanced diseases	Sophie Leboulleux, Switzerland
11:30	Panel discussion	Moderated by Laura Fugazzola
11:45	Case-based discussion on practical management of thyroid cancer	Robin Peeters, Netherlands
11:58	Closing remarks	Patrick Pauwels, Belgium
